### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art does not teach a method of calibrating an implanted electrochemical sensor comprising: determining if each of the following conditions are met: the signal from each of working electrode differ by less than a first threshold amount, the signals from each of working electrode are within a predetermined range, and a rate of change of the signals from each working electrode is less than a second threshold amount; and if these conditions are met, relating the calibration value to at least one of the signals from the working electrodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3736
